T.V.S.D.'s Leveled Book List is a list of books that will help you to make decisions about *independently leveled* or "just right" books for your child to read . T.V.S.D. uses the DRA or Developmental Reading Assessment to determine your child's *instructional level* in reading. This is the level in which your child can read and understand text *with support from the teacher*. Your child's DRA level can be obtained from your child's teacher and is located on your child's report card. To choose a "just right" or *independently leveled* book for your child, choose a book that is one or two levels below the DRA level listed on your child's report card. This will allow your child to read and comprehend/understand the text with little support. More simply stated:

- Locate your child's instructional DRA Level on his/her report card.
- Help your child to choose books that are 1 or 2 levels below their instructional DRA level (for example: if your child's end of year DRA is a level 16, you would want your child reading books that are from level 12 or 14 on this list).

The T.V.S.D. Leveled Book List is a limited list. By allowing your child to choose books that are of interest to them, you are helping to motivate your child's love of reading!
